5. **School Security**

Jerry Stomski discussed the school security presentation held in January at Waterbury City Hall. At the well attended event, information was obtained from vendors concerning their products and services. Mr. Stomski requested that the COGCNV school safety committee, of which he is co-chair, continue indefinitely. He encouraged the towns to contact him for information. Discussion followed.

6. **Regional Business**

Lou Mangini of Congresswoman Rosa DeLauro's office spoke about FEMA's potential response to winter storm Charlotte. Connecticut will begin sending out preliminary damage assessment forms next week to municipal emergency operations coordinators. After the state receives and tallies the completed forms, a request will then be made to FEMA for a full disaster declaration.

Jeremy Liefert of Thomaston read a letter from First Selectman Ed Mone seeking COGCNV support of a bill being presented on Thomaston's behalf "to the State of Connecticut Planning Committee to extend the state designated enterprise zone from Thomaston's southern border with Waterbury along the river to the Thomaston dam at its northern end to include all industrial properties located in said area plus industrial areas on Reynold's Bridge Road. In the process of designating the enterprise zone, Thomaston was overlooked. It shares many similar old industrial sites, as does the other communities along the Naugatuck River, yet lacks this designation. If designated an enterprise zone, it would greatly enhance Thomaston's ability to compete in a competitive market place and enhance economic development ." The request will be referred to the Regional Planning Commission.
