## Sounds of the Sea

Hearing the thunder here is all about timing. The best time to witness the boom and spray is two hours before high tide. If the ocean is calm or the tide is low, you may just hear gurgling. What causes the thunder? Over eons the relentless force of the ocean has gouged a narrow cave in this granite ledge. This cave traps air when it suddenly fills with water and creates a thunderous burst of ocean spray. Formations like Thunder Hole are just one way to experience the sheer power of these coastal waves and currents.

### Safety Tips

- Stay in designated walkways and viewing areas behind railings and respect gate closures for safe views of Thunder Hole.
- Big waves caused by high tides or offshore storms occur without warning and have washed people out to sea.
- Black algae and water make shore rocks very slippery. Use extreme caution if walking in these areas.

This photo captures the raw power of the ocean at Thunder Hole.

South Side

**Welcome to the Paul Powell, Sr. Fish Bypass & Park at Tinsale Dam**

The Paul Powell, Sr. Fish Bypass and Park at Tinsale Dam is a key component of the Tinsale Dam Rehabilitation and Replacement Project. The project was designed to improve the dam's safety and efficiency while also providing a new habitat for fish and a park for the community.

The bypass was designed to provide a more natural flow of water and a more natural habitat for fish. The bypass was designed to provide a more natural flow of water and a more natural habitat for fish. The bypass was designed to provide a more natural flow of water and a more natural habitat for fish.

**Paul Powell**

Paul Powell was a dedicated public servant who served the community for many years. He was a member of the local government and was instrumental in the development of the Paul Powell, Sr. Fish Bypass and Park at Tinsale Dam. His legacy lives on through the park and the bypass.

**The Park**

The park is a beautiful area that provides a great place for families to enjoy the outdoors. It features a playground, a picnic area, and a walking path. The park is a great place to enjoy the view of the river and the surrounding hills.
