

ENERGIZE CT **ENERGY IN ACTION**

*A Mobile
Learning Experience*

A mobile exhibit that travels to your school or community event!

Learn how you can be part of creating a more energy-efficient world by making smart, energy-saving decisions daily.

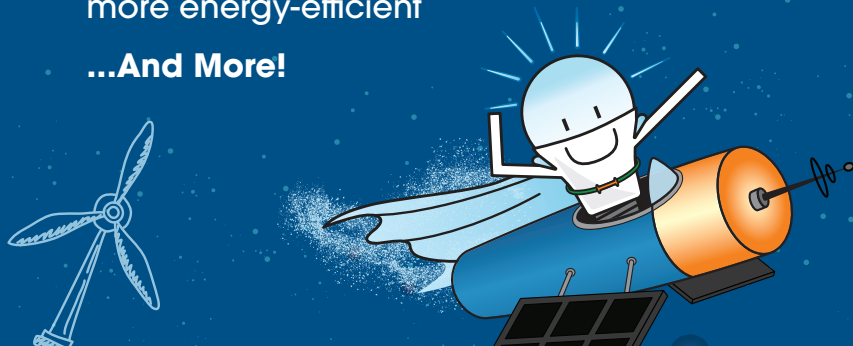

You'll learn how to make decisions that will not only save energy, but will help the planet, too! Witness and participate in mind-blowing, energy-saving experiments.

Learn the benefits of becoming an energy-efficient society. And discover renewable energy sources which help create a greener and cleaner future for our planet.

Step inside our interactive exhibit for a full experience of learning and exploration:

- **The Energy Grid** – Watch power flow to your home
- **Plasma Tube** – Learn how your body conducts electricity
- **Thermal Tunnel** – Observe how insulation prevents heat loss
- **Generation Station** – Use your power to discover which light bulb is most efficient
- **Wind Power** – Discover How Wind Turbines Produce Energy
- **Light Wall** – Make your pledge to become more energy-efficient

...And More!
