

NAUGATUCK VALLEY COUNCIL OF GOVERNMENTS

ENGINEERING SERVICES FOR RELOCATION OF THREE SEWER SIPHONS AND SEWER LINES ASSOCIATED  
WITH THE REMOVAL OF KINNEYTOWN DAM

REQUEST FOR QUALIFICATIONS

ADDENDUM No. 1

Issued July 12, 2023

**Comment/Question 1**

Under the submission requirements for this RFQ, prospective consultants are required to be currently pre-qualified by the Connecticut Department of Transportation in the categories of environmental engineering, sanitary sewage design, hydraulics, and soil remediation.

These categories do not appear applicable to the CTDOT consultant pre-qualification program.

**Response 1**

Under the heading Submission Requirements, the following sentence shall be deleted:

“Prospective consultant firms or team must be currently pre-qualified by the Connecticut Department of Transportation in the following categories: environmental engineering, sanitary sewage design, hydraulics, soil remediation.”

and replaced with the following sentence, “All assigned personnel must have and maintain all applicable CT licenses and certifications.”
