**RE: Notification of Potential Registration Requirement
for [Facility Name] – [Facility Address]
Aquifer Protection Area Program of the City of Norwalk**

Dear [Property Owner Name]:

The City of Norwalk is hereby notifying you that you or your tenant may be required to register with the City of Norwalk Aquifer Protection Agency as required by the Aquifer Protection Area Regulations. You are being notified because a survey of the aquifer protection area and the potentially regulated land uses indicate that you own property in this area on which you or a tenant operate a business with a potentially regulated use.

The Aquifer Protection Area Regulations will become effective on August 1, 2009. All businesses that are required to register under these new regulations must do so *within 180 days of this date*; in Norwalk that date will be **January 28, 2010**. Regulated activities within the Aquifer Protection area that are not registered will be prohibited.

Copies of the Aquifer Protection Area Regulations and the Norwalk Building Zone Map designating the Aquifer Protection Area Boundaries are available in the Conservation Office at Norwalk City Hall, 125 East Avenue, Norwalk, CT. The Regulations are also available on the City's website, at <http://www.norwalkct.org/conservation/AquiferProtection.htm>

If you have any questions, you are strongly encouraged to contact Alexis Cherichetti, Senior Environmental Officer, at 854-7744 or in the Conservation Office, which is located in Room 215, Norwalk City Hall.

Sincerely,

Alexis Cherichetti
Senior Environmental Officer
